ADD A MASTER CLASS

CRACKING THE CODE: ACID-BASE DISTURBANCES

JUNE 18, 2026 | 7 HOURS RACE APPROVED CE | \$599

Join **Dr. Amy Kaplan**, cVMA, DACVECC, MRCVS, **Dr. Amie Koenig**, DACVIM, DACVECC and **Dr. Justine Lee**, DACVECC, DABT as we review all things acid-base! (After all, it's not ALWAYS just a metabolic acidosis!) Understanding acid-base disturbances is important in emergency medicine, critical care, anesthesia, internal medicine, surgery...and so much more. But don't start giving yourself a respiratory alkalosis when it comes to solving them. In this 7-hour, CE-accredited VETgirl master class, we'll walk through a practical, step-by-step strategy to confidently interpret arterial and venous blood gases. Using real-life cases, we'll cover metabolic and respiratory acidosis/alkalosis, mixed disorders, clinical clues, management strategies, fluid therapy and more! Ideal for veterinarians wanting to sharpen their diagnostic skills and clinical decision-making.

CYTOLOGY CONFIDENCE: MASTERING SAMPLE COLLECTION & INTERPRETATION

JUNE 18, 2026 | 7 HOURS RACE APPROVED CE | \$899

In this 7-hour, CE-accredited VETgirl master class, **Dr. Sarah Beatty**, DACVP and **Dr. Holly Brown**, PhD, DACVP will give YOU the tools to take your cytology skills from uncertain to unstoppable with a deep dive into sample collection, preparation, and interpretation across a wide range of fluids and tissues. From FNA technique to in-house slide review, you'll learn how to spot patterns, avoid pitfalls, and make faster, more accurate diagnoses. Please bring your own laptop or tablet for learning purposes.
